

**Maryland Department of Health & Mental Hygiene**  
**Office of Preparedness & Response**  
**Maryland Responds MRC Training Announcement**

**Course Title:** **IS-907: Active Shooter: What You Can Do**

**Description:** An active shooter is an individual actively engaged in killing or attempting to kill people in a confined and other populated area. In most cases, active shooters use firearms and there is no pattern or method to their selection of victims. Active shooter situations are unpredictable and evolve quickly.

All employees can help prevent and prepare for potential active shooter situations. This course provides guidance to individuals, including managers and employees, so that they can prepare to respond to an active shooter situation.

This course is not written for law enforcement officers, but for non-law enforcement employees. The material may provide law enforcement officers information on recommended actions for non-law enforcement employees to take should they be confronted with an active shooter situation.

This course is offered through the Federal Emergency Management Agency's Emergency Management Institute (FEMA EMI).

**Audience:** All Maryland Responders (medical and non-medical) & general community

**Date/ Time:** Available online 24/7.

**Location:** <http://training.fema.gov/is/courseoverview.aspx?code=IS-907>

**Other:** FEMA offers 0.1 CEUs for this course.

**Registration:** No registration is required.

**Questions:** For questions about the:

- Course, please contact FEMA's EMI (see link under "Location").
- Maryland Responds MRC, email the Maryland Responds State Program at [mdresponds.dhmf@maryland.gov](mailto:mdresponds.dhmf@maryland.gov), or call us at 410-767-0959.
